

**European Food
Sustainable Consumption and Production (SCP)
Round Table**

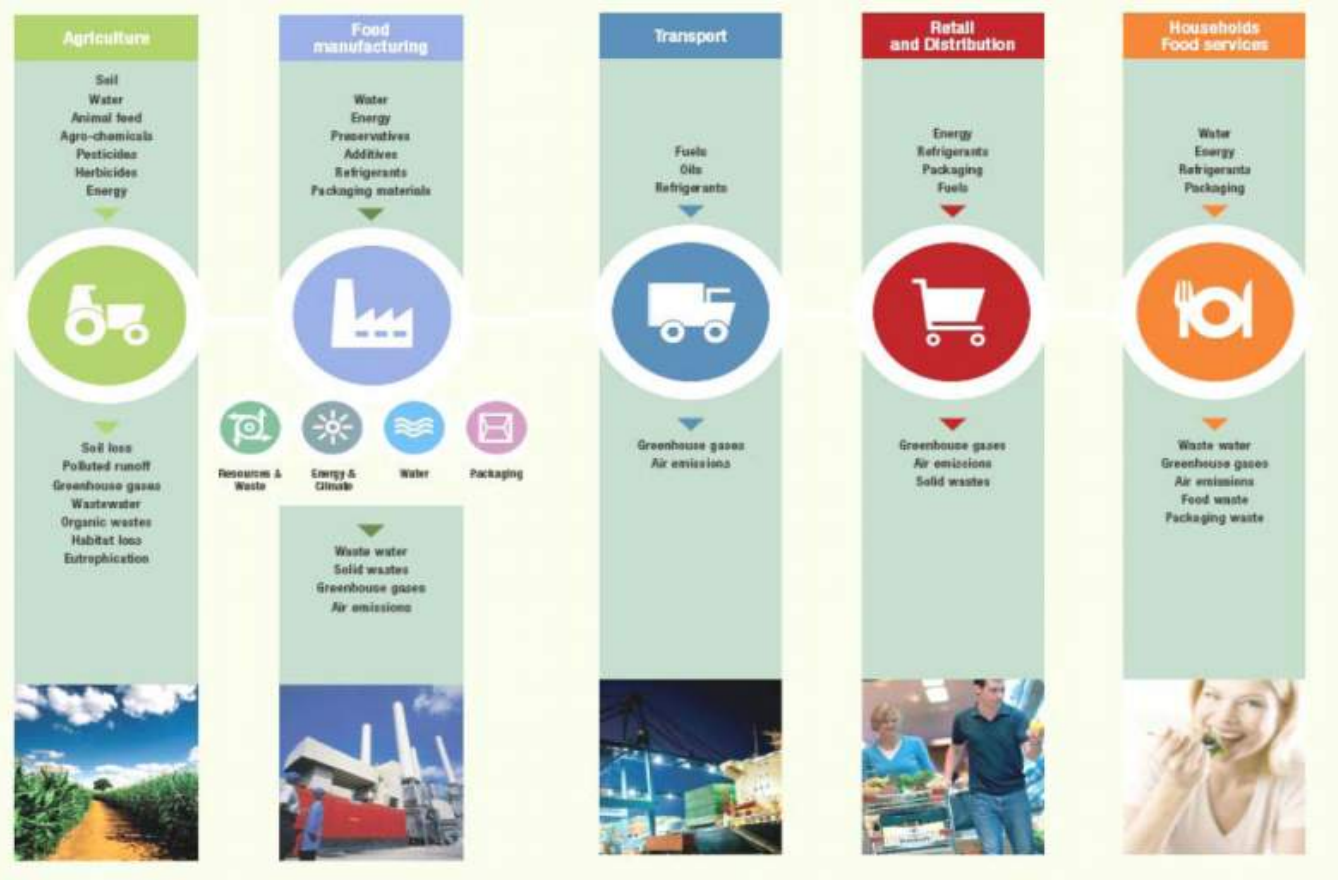

Key Objectives

1. Establish scientifically reliable and uniform **environmental life cycle assessment methodologies** for food and drinks
2. Identification of suitable **tools for communication** (from business to business and to consumers) on a **voluntary** basis
3. Promote and report on **continuous environmental improvement** along the entire food chain

The RT approach: Cooperation across the whole food chain

10 Eligible Constituencies

- **Suppliers to the agricultural sector**
- **Farmers and agri-cooperatives**
- **Agricultural trade**
- **Food and drink industries**
- **Packaging value chain**
- **Transport & logistics operators**
- **Retailers**
- **End-of-life**
- **Consumer NGOs**
- **Environmental NGOs**

Founding organisations

- **CELCAA** European Liaison Committee for Agricultural and Agri Food Trade

>> 22 members by end of November.

The EU Commission co chairs the Food SCP Round Table

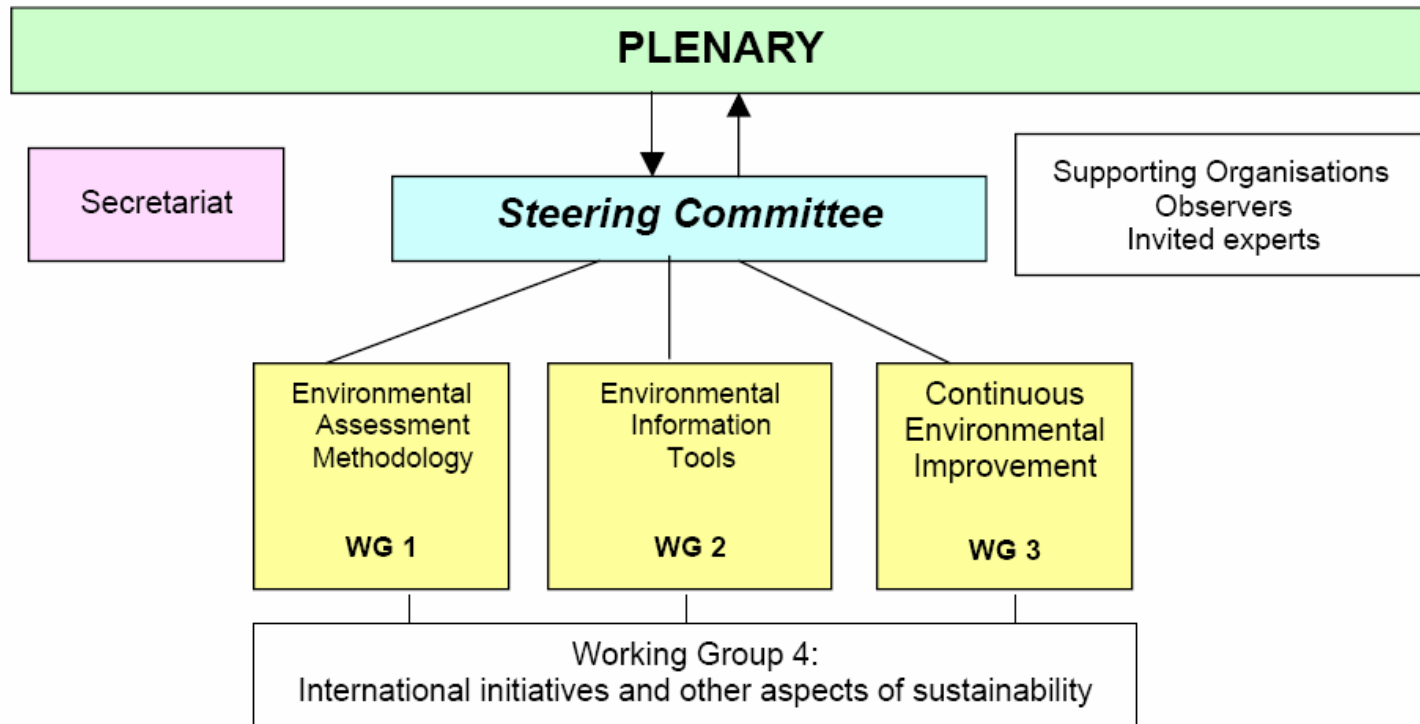

Participation to the initiative is defined as follow by the Terms of Reference (ToR):

- The RT is open to all **food chain operators**, consumer organisations, NGOs, science and policy makers having a genuine interest in the RT objectives
- Participants must perform an activity directly relevant to
 - the food value chain (integral part of the food chain)
 - the assessment and/or management of its environmental implications and/or
 - the communication of food and drink products' performance, including their environmental performance, to consumers
- European federation/organisation (companies nominated by organisations)
- European dimension in support of an EU-wide approach

Governance structure

Thank you for your attention
